

The AFWERX Incubator program focuses on the development of grassroots ideas that originate internally to the Air Force as well as the DOD Acquisitions System. Its principal objective is to accelerate innovations within the Department of Defense (DOD) from a prototype to a necessitated operational capability.

Program Offerings

- ▶ Workspace and time to develop your Minimum Viable Product (MVP)
- ▶ Access to Advisors and Coaches
- ▶ IT Resources
- ▶ Technical and Business Resources
- ▶ Networking Events with interested DoD and VC attendees
- ▶ Project Management assistance

Benefits

- ▶ Addresses Diverse Problems that are not confronted by the traditional AF Acquisitions process because the “new” projects failed to make it above the “cut line” to be worked
- ▶ Addresses real problems at the tactical edge instead of perceived problems on a requirements sheet from a staff entity that can be disconnected from warfighter’s needs
- ▶ Increases Joint Collaboration by coordinating and physically co-locating with other DOD innovation entities
- ▶ Increases utilization of SBIR/STTRs by co-locating top priorities/projects with the AFVentures team
- ▶ Increased quality of projects by providing training towards the best projects
- ▶ Change culture at scale by pulling in hundreds of Airmen & Guardians per year that integrate in the AF Acquisitions process in different ways

2-Weeks to 6-Month Incubation Programs

Weekly Innovation Networking and Pitching

No Facility Cost to Individual/Team

Access to 100+ Agency and Department SMEs
